Kumpulan Rumus Kimia Sma Lengkap Pdf Download Why does it seem that professional border patrol agents and successful drug smugglers alike have a preternatural understanding of human emotions, and increasingly in recent years, human survival instincts? If one takes the time to look closely, the canyons and mountains of the Arizona-Mexico border are chock full of signs, mirages, and the faint traces of long, difficult struggles and stand-offs, pulled off by men and women whom most of us have never met. The more I read, the more convinced I became that if the agents could read minds, the smugglers' victories and defeats would be more intelligible. But I was sobered by the fact that almost all of what I found is of a personal nature, or at best the latest news report. I was expecting to find lots of generalities and statistics. I was wrong. Here are some examples of social cues and strategic moves that have been used by smugglers over the years. Comfort. Smugglers seem to be masters of subtle manipulation. The best way to get drugs through the border, from the smuggler's point of view, is to give a sign that you trust someone, in hopes that the person in question will return the favor. Or you can just ask. One smuggler I knew, a former Eagle scout, when I was a kid, regularly brought his family into the US by asking for directions when he arrived. The stranger would guide him to the border, where he would then return the favor. His family would stay in the US. Sometimes the customers bring in people. Sometimes they bring in children. The beginning of a relationship. This kind of back door is more reliable than smuggling with a truck full of dope. Less is more. The Returned Child. Sometimes a smuggler makes a big deal of bringing a child or children into the US. The fact that they are kids tells agents they are less likely to harm the kids, as human parents often do to their own children. Obviously, if the child is a large one, it makes it easier to smuggle it in. But it also serves as a certain sign of maturity and trust, which only the larger smuggler, who knows the terrain better, really understands. Sympathy. As a friendly gesture that borders on flattery, smugglers simply ask a US citizen to write a note of sympathy, saying something nice about how great a day it is on 3da54e8ca3
